7.1 DISCLOSING AND SHARING PERSONAL DATA

7.1.1 When receiving telephone or email enquiries, members, employees and volunteers should exercise caution before disclosing any Personal Data. The following steps should be followed:

- (a) Ensure the identity of the person making the enquiry is verified and check whether they are entitled to receive the requested information;
- (b) Require the enquirer to put their request in writing so that their identity and entitlement to receive the information can be verified if the information is particularly sensitive and/or you are not confident the person is entitled to the information;
- (c) If there is any doubt, refer the request to the DPO for assistance; and
- (d) When providing information, ensure that Personal Data is securely packaged and sent by the most appropriate means (e.g. special delivery, courier or hand delivery) in accordance with the Data Protection Rules, the Privacy Notice and this Policy. Personal data should not be sent in, or attached to, insecure e-mails.

7.1.2 Please remember that parents and guardians are only entitled to access information about their child if the child is unable to act on their own behalf (e.g. because the child is not mature enough to understand their rights) or if the child has given their consent. If you are unsure about whether or not to provide information about a child to a parent or guardian, please speak to the DPO before providing any information. Children from 12 years upwards are generally to be taken as being capable of understanding their rights and making decision regarding their own information.

However, consideration of the particular circumstances and the child's capacity must be given in each circumstance.

- 7.1.3 Please also remember that individuals are only entitled to obtain information about themselves and not any other third parties (e.g. a club member, coach, other volunteer, member or staff).

7.2 DATA PROCESSORS

- 7.2.1 The MCRFU may instruct another body or organisation to process Personal Data on its behalf as a Data Processor (e.g. a payroll provider, or a third-party IT provider). In such situations, the MCRFU will share necessary information with the Data Processor, but will remain responsible for compliance with the Data Protection Rules as the Data Controller.
- 7.2.2 Personal Data will only be transferred to a third-party Data Processor if the DPO is satisfied that the third party has in place adequate policies and procedures to ensure compliance with the Data Protection Rules. There should also be a written contract in place between the MCRFU and the Data Processor, which includes provisions to ensure that the Data Processor complies with the requirements of the Data Protection Rules. If you have authority to enter into such contracts, please refer to the Data Processor Contract Checklist.

7.3 THIRD PARTY REQUESTS

- 7.3.1 The MCRFU may from time to time receive requests from third parties for access to documents containing Personal Data. The MCRFU may disclose such documents to any third party where it is legally required or permitted to do so. Such third parties may include health professionals, the Police and other law enforcement agencies, HMRC, other regulators, immigration authorities, insurers, local authorities (e.g. Trading Standards), Courts and Tribunals or organisations seeking references.
- 7.3.2 Anyone in receipt of any verbal or written request from any person for access to, or disclosure of, any Personal Data outside of normal MCRFU operations must immediately contact the DPO.

7.4 TRANSFERS OF PERSONAL DATA OUTSIDE OF THE EEA

- 7.4.1 The Data Protection Rules require Data Controllers to put additional safeguards in place when transferring Personal Data outside of the EEA. Additionally, such transfers can only take place on a number of legal grounds. The MCRFU does not store Personal Data outside of the UK. Where it contracts with a Data Processor who holds data on behalf of the MCRFU outside the EEA, very strict compliancy will be sought.

However, the MCRFU may transfer Personal Data outside of the EEA where requested by the Data Subject, on the basis of the Data Subject's informed consent. This includes, but is not limited to, the situation where a Data Subject requires their rugby playing or discipline record to be sent to the Rugby Union of a non-EEA country. The DPO may also authorise transfers where another legal ground in the Data Protection Rules is met.

7.5 SUBJECT ACCESS REQUESTS (SAR'S)

KEEP UPDATED
FOLLOW US ON :

- 7.5.1 Any Data Subject may exercise their rights as set out above (e.g. the right of access to the Personal Data which the MCRFU holds about them, or the right to have Personal Data corrected or erased). Any and all such requests should immediately be referred to the DPO. (These rights may be limited, for example if fulfilling your request would reveal personal data about another person, or if you ask us to delete information which we are required by law to keep or have compelling legitimate interests in keeping)
- 7.5.2 To be valid, a Subject Access Request must be made in writing (including requests made via email or on social media) and provide enough information to enable the MCRFU to identify the Data Subject and to comply with the request.
- 7.5.3 All Subject Access Requests will be dealt with by the DPO. Members, employees or volunteers who receive a Subject Access Request must forward it to the DPO immediately in order that such requests can be replied to within the strict deadlines set out in the Data Protection Rules (generally one month from the date of the request).
- 7.5.4 No fees will be charged for dealing with Subject Access Requests unless a request is considered to be manifestly unfounded, excessive or repetitive. Fees may be charged to provide additional copies of information previously provided. Where the MCRFU considers a request to be manifestly unfounded, excessive or repetitive, the MCRFU may lawfully refuse to respond and, if so, the DPO will inform the Data Subject of this in writing within the one-month period.

8 **FUNDRAISING AND MARKETING**

- 8.1 Any use of Personal Data for marketing (including fundraising) purposes must comply with the Data Protection Rules and the Privacy and Electronic Communications Regulations (the "PECR") (and any replacement legislation), which relate to marketing by electronic means.
- 8.2 Individuals have a right to object to their Personal Data being used for electronic marketing purposes. Individuals must be informed of their right to object when their data is collected. If an objection is received, no further marketing or fundraising communications must be sent to them.
- 8.3 The PECR requires that the MCRFU has the prior consent of recipients in certain circumstances before it sends any unsolicited electronic messages for the purpose of fundraising, or other marketing activities (e.g. events).

12 GLOSSARY

"Data Controller" means a person, organisation or body that determines the purposes for which, and the manner in which, any Personal Data is processed. A Data Controller is responsible for complying with the Data Protection Rules and establishing practices and policies in line with them.

"Data Processor" means any person, organisation or body that Processes personal data on behalf of and on the instructions of the MCRFU. Data Processors have a duty to protect the information they process by following the Data Protection Rules.

"Data Subject" means a living individual about whom the MCRFU processes Personal Data and who can be identified from the Personal Data. A Data Subject need not be a UK national or resident. All Data Subjects have legal rights in relation to their Personal Data and the information that the MCRFU holds about them.

"EEA" is the European Economic Area, consisting of the countries of Austria, Belgium, Bulgaria, Czech Republic, Cyprus, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, **Iceland**, Ireland, Italy, Latvia, **Liechtenstein**, Lithuania, Luxembourg, Malta, Netherlands, **Norway**, Poland, Portugal, Romania, Slovakia, Slovenia, Spain, Sweden, United Kingdom. (Countries in bold are non-EU members. Switzerland is in neither, nor is the Vatican City.)

"Personal Data" means any information relating to a living individual who can be identified from that information or in conjunction with other information which is in, or is likely to come into, the MCRFU's possession. Personal Data can be factual (such as a name, address or date of birth) or it can be an opinion (e.g. a performance appraisal). It can even include a simple email address. A mere mention of someone's name in a document does not necessarily constitute Personal Data, but personal details such as someone's contact details or salary (if it enabled an individual to be identified) would fall within the definition.

"Processing" means any activity that involves use of Personal Data. It includes obtaining, recording or holding the information or carrying out any operation or set of operations on it, including organising,

amending, retrieving, using, disclosing, erasing or destroying it. Processing also includes transferring or disclosing Personal Data to third parties.

"Special Categories of Personal Data" (previously called sensitive personal data) means information about a person's racial or ethnic origin, political opinions, religious or similar beliefs, trade union membership, physical or mental health or condition or sexuality. It also includes genetic and biometric data. Special Categories of Personal Data can only be processed under strict conditions and such processing will usually, although not always, require the explicit consent of the Data Subject.

"Data Breach" - A personal data breach means a breach of security leading to the accidental or unlawful destruction, loss, alteration, unauthorised disclosure of, or access to, personal data. This includes breaches that are the result of both accidental and deliberate causes. It also means that a breach is more than just about losing personal data. It can be broadly defined as a security incident that has affected the confidentiality, integrity or availability of personal data. In short, there will be a personal data breach whenever any personal data is lost, destroyed, corrupted or disclosed; if someone accesses the data or passes it on without proper authorisation; or if the data is made unavailable, for example, when it has been encrypted by ransomware, or accidentally lost or destroyed.
